

Junk charts

Among 30 news sources in our survey, Democrats have more trust than distrust in most of them, while Republicans tend to be more distrustful

Ratio of trust to distrust for 30 news sources, by party affiliation

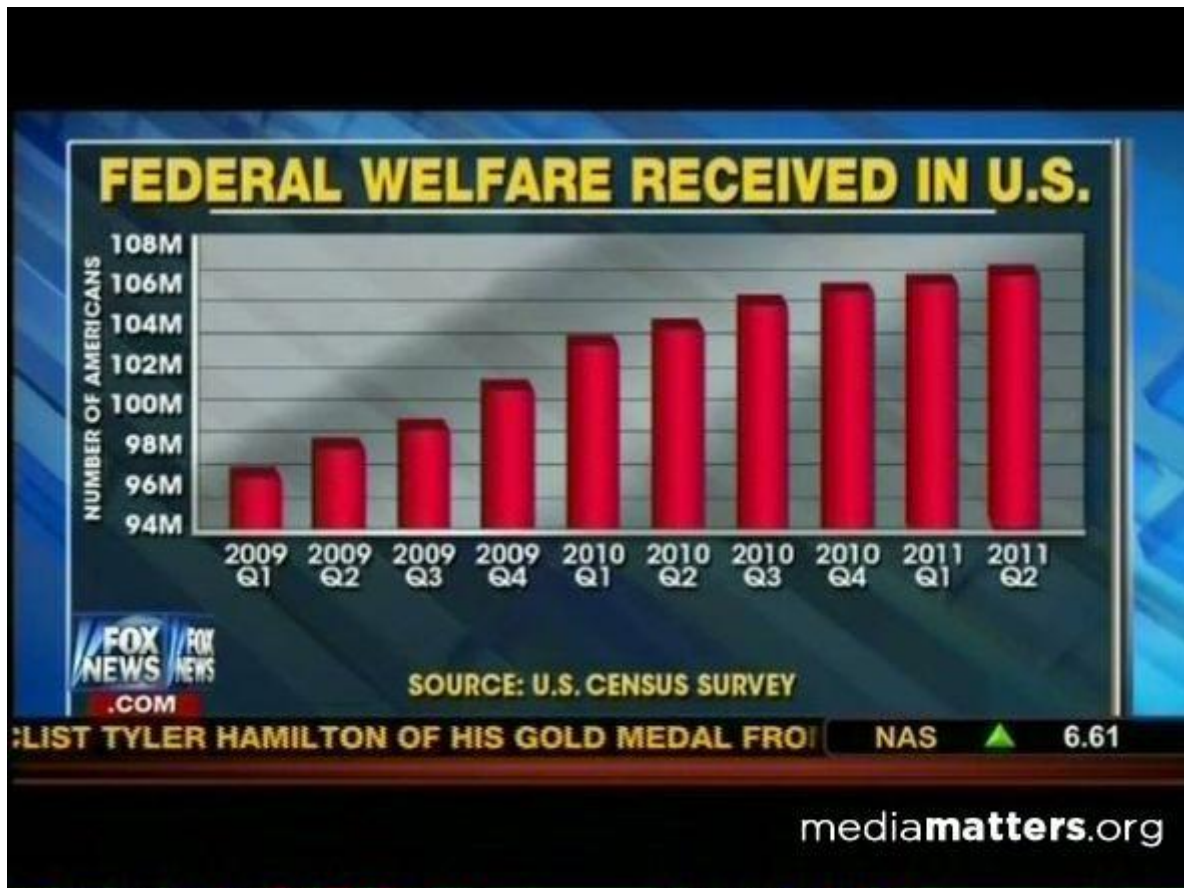

Note: Breitbart is not shown among Democrats/Democratic leaners. It is about 41 times more distrusted than trusted. Each dot represents one news source. Dot size represents how many people have heard of the source. The larger the dot, the more people have heard of it. Dots that are plotted further to the right have a higher ratio of trust to distrust, and dots that are plotted further to the left have a higher ratio of distrust to trust. For more details, including data underlying this chart, refer to the News Media Tracker data tool. Source: Survey of U.S. adults conducted March 10-16, 2025.

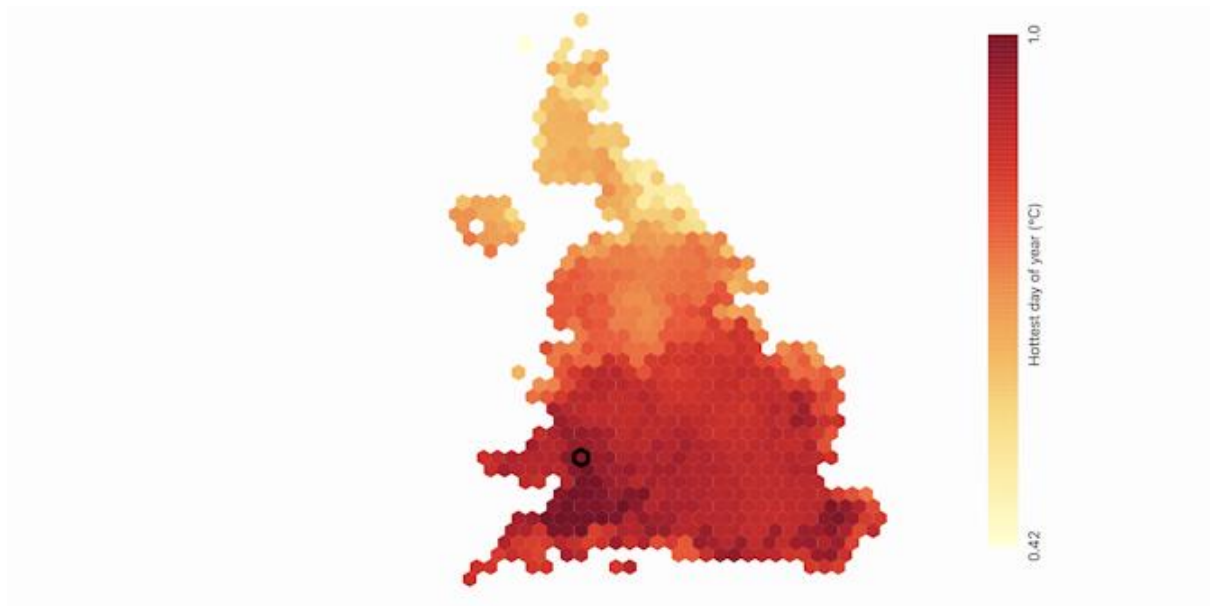

"The Political Gap in Americans' News Sources"
